

*In the book my closing words to you expressed my sincere hope that you enjoyed your journey through the pages of "Metaphysical Leadership - Harnessing the Power Within to Transform Your World from the Inside Out". The book was written drawing on past experiences, knowledge, understanding and the wisdom of so many great metaphysicians. Since its completion, the universe has opened opportunities and challenges for me to personally apply the Metaphysical Leadership principles and concepts expressed in the book in real time and in personal real-life situations.*

*Even as I encouraged you to remember that you are at the center of this transformative process, I found myself reminding myself that dwelling within the core of my being was the spiritual, universal and metaphysical powers I needed to lead from within and meet the challenges that were before. I have to tell you it is a humbling but amazing experience to submit yourself to the power and reality of shared truth. I simply did not expect that life would align with the universe to promote my understanding and harnessing of the power within me through post writing experiences. Yet I am writing to you now to say, "It works if you work it."*

*From my heart to yours, I hope you to soar in your mind and heart to the realm within that is beyond the boundaries of "I Can't" and know that "What lies behind us and what lies before us are tiny matters compared to what lies within us." I encourage you again to recognize that the power to transform your world comes from your understanding, faith, and love that dwell at the core of your being. You are the center, the point from which all things get done, and the leader of your destiny. So, go forth with confidence and courage. Trust in the powers within you and let them guide you to create a life of purpose, fulfillment, and impact. Remember, the journey of metaphysical leadership begins at the center of your being and flows outward, touching the universe with your unique light.*
